

Code Cityside Living

The 'code' architectural language is introduced throughout the landscape with contrasting pavement panelling, timber battens and variegated, sculptural foliage.

CODE CITYSIDE LIVING is a unit development in Brisbane's Bowen Hills, under the jurisdiction of the Urban Land Development Authority. The project features large courtyards, a public pool and barbecue area on the ground floor, and a sky garden on the top level, offering views to the CBD.

The landscape design builds upon Cottee Parker Architects' strong architectural language. Landscape spaces respond to the lineal patterning of the Code typology and are designed to be comfortable and allow people to enjoy life outdoors.
